Introduction

The holistic health approach focuses on the 'whole person' rather than symptoms of diseases or ailments, since it is a symmetry of physical, mental, financial and spiritual well-being. Holistic Health Inc. boasts of the use of CODEX, ISO, GMP and HACCP standards for production, manufacturing and handling of food supplement, beauty care and personal care products, which balances all the four factors of wellness. This approach is based on the philosophies and principles of the oriental hemisphere, more than 5,000 years ago, to live healthy life in balance with nature. Socrates (400 AD) also has said that the part will not perform perfectly unless the whole is ideal. Likewise, Hippocrates (460–380 BCE), father of modern medicine, said that sickness is the product of diet, environmental factors and living habits.

Vision

Holistic Health Inc. envisions to be the leading organic food supplement, beauty care and personal care producing and marketing enterprise contributing to health, happiness, prosperity and peace (HHPP) of people the world over.

Mission

The Legation of Holistic Health Inc. is to inspire lifelong learning for upgrading 3W's (wellness, well-being and wisdom) for holistic lifestyle, embracing balance of healthy food, potable water, proper living habits and safe environment.

Goal

The purpose of the Holistic Health Inc. is to achieve holistic lifestyle of each individual that represents balanced physical, mental, financial and spiritual well-being.

Objectives

- Producing and marketing of quality and internationally standardized organic food supplements, beauty care and personal care products;
- Undertaking information, education and communication on holistic lifestyle embracing ethical practices, positive attitude and affirmative behavior;
- Carrying out studies and researches on holistic lifestyle.
- Reinforcing creation of employment and self-employment to develop holistic enterprises and entrepreneurship.
